1. This single license gives only the licensee permission to use the program.
2. Redistribution of the software is not permitted without expressed permission of the licensor.
3. Publications of the licensee using this software must quote the program IGtHPile and the developer, the Institute of Geotechnical Engineering, in the following manner: „The calculations presented in this publication were performed with the IGtHPile software developed by the Institute of Geotechnical Engineering (IGtH), Leibniz Universität Hannover, Germany.“
4. Because the program is licensed free of charge, there is no warranty for the program. Except when otherwise stated in writing the copyright holders and/or other parties provide the program „as is“ without warranty of any kind, either expressed or implied, including, but not limited to, the implied warranties of merchantability and fitness for a particular purpose. The entire risk as to the quality and performance of the program is with the licensee. Should the program prove defective, the licensee assumes the cost of all necessary servicing, repair or correction.
5. In no event unless required by applicable law or agreed to in writing will the licensor be liable for damages, including any general, special, incidental, or consequential damages arising out of the use or inability to use the program (including but not limited to loss of data or data being rendered inaccurate or losses sustained by the licensee or third parties or a failure of the program to operate with any other programs), even if the licensor or any other party has been advised of the possibility of such damages.
6. The limitation of liability outlined in para. 4 and para. 5 is not valid in cases of deliberate intention and/or in cases of gross negligence and/or in the case of liability for personal injury.
